

## VEHICLES

IFS has been appointed by GM to provide sales, service and fleet managed solutions for Aid & Development organizations worldwide. To support ongoing humanitarian work in these markets, IFS will distribute specialized vehicles from GM's globally sourced product line-up related to Aid & Development. These products are built to meet challenging local requirements and include the Chevrolet Colorado, Chevrolet Trailblazer, Chevrolet N300 Work, Chevrolet Sail and Isuzu D-Max Pickup. All of these vehicles can have specialized conversions to meet every operational requirement.

## ABOUT US

### International Fleet Sales

Since 1999, IFS' veteran team has partnered with more than 800 organizations, commercial fleets and government entities in over 60 countries to provide automotive wholesale and retail sales and comprehensive product support services.

Now, IFS and GM / Chevrolet / Isuzu are teaming with key organizations to serve the unique needs of humanitarian organizations by developing special use vehicles, responding to requests for proposals, providing consolidated product support options and delivering cost effective logistics / operational solutions.

## OUR CAPABILITIES

**IFS is uniquely adapted to meet the complex transportation requirements of humanitarian aid and support groups.**

**IFS is able to:**

- Increase efficiencies with the right specifications and equipment
- Deploy vehicles more effectively with advanced and comprehensive logistics
- Maintain fleets with comprehensive Global Product Support
  - Warranty
  - Maintenance
  - Service repairs (in any country or theater of operations)
- Develop the optimal financial and commercial capability for any size of budget

- Reduce administrative burdens through a complete portfolio of fleet managed solutions
  - Leasing options
  - Insurance
  - Vehicle tracking
  - Vehicle disposal
  - Comprehensive maintenance programs

IFS is dedicated to helping humanitarian organizations redirect valuable time, focus and funding from transportation and logistics to the achievement of their ultimate goals.

For a comprehensive analysis of your operational, geographic, and logistical requirements, and to develop a portfolio of cost effective options for consideration, please contact your nearest IFS office or visit us at [internationalfleetsales.com](http://internationalfleetsales.com).

**CUSTOMIZATION:** IFS will work with your organization to develop and install equipment that meets your operational needs.
